AGX

Lens Collections: SkyTec™, SkyTec-P™ & SkyForce™

This 'relaxing' green lens selectively highlights the soothing green/yellow wavelengths of the light spectrum to reduce eye fatigue and improve visual performance.

American Gray

Lens Collections: SkyTec™, SkyTec-P™ & SkyForce™

Our signature neutral gray lens, originally engineered for military pilots. Maintains 'true' color and contrast distribution throughout all light and terrain conditions.

American Tan

Lens Collections: SkyTec™ & SkyTec-P™

Provides contrast enhancement and depth perception superior to other lens colors for a sharp and crisp view, even on cloudy days.

Blue Hydro

Lens Collections: SkyTec™

Sharpens outdoor clarity and makes the colors of nature pop to life. A medium mid-range tint, highlighting green, yellow and red, gives an overall effect of enhanced contours and sharper color definition.

Granite

Lens Collections: SkyTec-P™

Make a statement. This iconic lens adds a multi-layer silver mirror to our signature American Gray lens (originally engineered for military pilots), all with built-in polarization properties.

Atlantic Blue

Lens Collections: SkyForce™

A stunning cobalt-blue multi-layer mirror that reduces glare and provides a neutral all-purpose tint.

Rose Gold

Lens Collections: SkyForce™

A stunning shiny rose multi-layer mirror that reduces glare and provides a neutral all-purpose tint.

Cape Sand

Lens Collections: SkyForce Air™

Named after the color of the sand on Cape Cod, this classic tan gradient lens is a solid staple for your wardrobe.

Coastal Gray

Lens Collections: SkyForce Air™

This subtle gray gradient lens reminiscent of the shoreline skies is a great neutral lens for every day wear.

Evergreen

Lens Collections: SkyForce Air™

A green gradient lens that selectively filters color to reduce eye fatigue and improve visual performance. Similar to our AGX lens.

Harvest

Lens Collections: SkyForce Air™

A copper gradient lens with hints of warm amber and coated with a metallic silver flash coating.

Northern Lights

Lens Collections: SkyForce Air™

Sure to turn heads, this cobalt-blue metallic flash mirror lens with a tan gradient base is a must-have for your fashion wardrobe.

Slate

Lens Collections: SkyForce Air™

A nod to slate and its color undertones, this attractive Blue / Gray Gradient lens is excellent for every day wear.
